

# DATASHEET

# HELIOS | HANDLE

Compatible with:  
FP2 Helios Tube

Date: 01/28/21 Version: 1.0

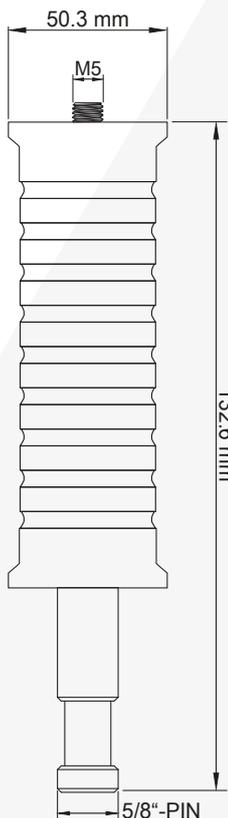

The HeliosHandle can be screwed onto the Helios Tube so that it can be held and aimed at people or objects when filming. It also has a BabyPin attached so that it can be mounted.

Note: It is designed only for Helios Tube (FP2), for longer tubes the leverage could be too high for the integrated thread.
